

# Ginninderra Junior Cricket Club

## Role of the Coach:

Maintain regular contact with the team manager

Training:

- Set time for training
- Organise, plan and run training sessions

Matches:

- Run warm ups before matches
- Nominate batting and bowling order on paper for the scorer – a copy should be handed to the opposition scorer
- If extra players in the team, ensure that time off is rotated by players across the team when fielding

## Role of the Manager:

Be the main contact point for the team

- Maintain regular communication with the team and coach and send notices and information regularly
- Check the draw each week (grounds can change) and advise team of match location
- Organise parents to share the weekly team duties (scoring, umpiring, setting up field when home team) – can set up a roster for the season
- Select team on MyCricket for the match before game day

Match Day

- Have scoreboard ready for the match with a pencil case containing pencils (clutch pencils work best), erasers, calculator, bulldog clips and a clip board or something firm to rest scorebook on
- Organise a scorer and ensure that they sit with opposition scorer (usually positioned square to the wicket)
- Set up the team away from the scorers – they need some space and have to concentrate on the match, they don't need constant conversations going on around them.

After the match

- Enter the match results and statistics into MyCricket – or get a volunteer to do it. This should be done by the same person each week (a login can be arranged for whoever will do it). The home team should enter the results first, then the away team confirms.
